

# FUERZA AÉREA DE CHILE

## COMANDO LOGÍSTICO

Comandancia en Jefe

Av. Pedro Aguirre Cerda 5500

Los Cerillos, Santiago

Chile

P05/P29/4114.

June 15<sup>th</sup>, 2011

To whom it may concern,

*The Daedalus Aviation Group has performed the Pacer Amstel (Falcon Star+) structural modification program on three (3) of our F-16 block 15 MLU aircraft along with an on-the-job training program for our FACH organization and Chilean Defense industry partner ENAER (Empresa Nacional de Aeronáutica de Chile) in a professional and timely manner and to our full satisfaction.*

*Daedalus has proven to have a very skilled and experienced workforce that is not only good at the work they perform, but also at collaborating effectively and efficiently with our own military workforce and local partners.*

*We therefore highly recommend the Daedalus Aviation Group for any type of MRO project within the military aviation sector and on the F-16 weapon platform in particular.*

*Receive my deepest consideration*

*Sincerely,*

  
  
**MANUEL QUIÑONES SIGALA**  
**Lieutenant General**  
**LOGISTIC COMMAND COMMANDER**  
**CHILEAN AIR FORCE**
