Subject Letter of Recommendation

This letter of recommendation is to confirm that the Logistic Center Woensdrecht of the Netherlands Defense Materiel Organization has been and still is contracting technical specialists as well as technical managers of the Daedalus Aviation Group to work in different positions at base level and in the F-16 modification programs; such as Falcon-up (*168 aircraft, completed*), Mid Life Update (*138 aircraft, completed*) and Falcon STAR (*108 and continuing*) at depot level.

For at least 12 years the Daedalus Aviation Group, based in Tilburg, the Netherlands has been involved in supporting the Defense Materiel Organization with specialists to my full satisfaction.

The Defense Materiel Organization is aware that the Daedalus Group obtained a 4 year contract to deliver technical assistance, supply management and engineering support to the Chilean Air Force for the long-term sustainment and modification programs of their F-16 aircraft.

The Daedalus Aviation Group is highly recommended for the professional skills of their employees.

The Commander of the Logistic Center Woensdrecht,

E.C.G.J. van Duren
Air Commodore
